

From heterogeneous evidence to the research contract

Conceptual problem-control map. Arrows show design traceability; line width encodes no measured quantity.

Interpretation boundary: this is a design traceability map, not an empirical result.
It reports no prevalence, effect size, time saving, live coverage, cost, user benefit or production-readiness claim.

Source note: controls from SOURCE_EVIDENCE_MATRIX, PROJECT_CHARTER, DATA_DICTIONARY and REQUIREMENTS.
Missingness and time: Hardman and Ramirez Santos (2023, PDF pp. 21-25); Nikiforova et al. (2020, PDF pp. 15-17); Thorne et al. (2026, PDF pp. 1-6). Citation and safety: Gao et al. (2023a, ALCE, PDF pp. 1--4); Greshake et al. (2023, PDF pp. 1-4). Full requirement IDs, local locators and SHA-256 hashes: intro_f1_provenance.json.
